

SKILLS

JavaScript, React, Redux, HTML, CSS, Ruby on Rails, Mongoose, MongoDB, Node.js, Express.js, SQL, SQLite3, PostgreSQL, Webpack, jQuery, Git, Heroku, SCSS, Google Maps API, Quickbooks, NetSuite

PROJECTS

Trace | (React / Redux, Ruby on Rails, JavaScript)

[live](#) | [github](#)

A full stack single-page route and workout application inspired by STRAVA and deployed on Heroku

- Leveraged Google Maps and Directions APIs to allow users to interact with a dynamic map and create personal routes based on chosen waypoints.
- Designed RESTful routes and a structured, normalized state shape, allowing for smoother CRUD functionality across the entire frontend and providing a seamless user experience.
- Implemented custom user authentication on both the frontend and backend using bcrypt and password hashing, cleanly rendering any authentication errors to maintain a consistent login experience.

What's Cooking | (JavaScript, MongoDB, Express, React / Redux, Node)

[live](#) | [github](#)

A MERN-based full stack application that generates and bookmarks recipes based on the ingredients provided by the user

- Developed Express.js routes to send requests to Spoonacular, a third party API, utilizing axios and leveraging mongoose models to provide the front end with accurate and efficient data.
- Collaborated with a team of 3 software engineers and achieved optimal team efficiency via daily stand-ups, pair-programming and reviewing git merge requests, completing the project in a timely manner.
- Created a normalized redux store on the front end to ensure consistency in data while handling any crud actions.

Lava Escape | (JavaScript, HTML, Canvas)

[live](#) | [github](#)

Interactive 2D platform game where players try to survive for the high score

- Leveraged javascript event listeners in conjunction with Canvas's requestAnimationFrame to provide smooth gameplay with a dynamic frame rate.
- Incorporated animation sprites and sound effects using HTML and CSS, achieving an engaging, immersive audio/visual experience for the user.
- Engineered a highscore feature utilizing Localstorage, accurately maintaining record of players' top score and giving the application more of a competitive element.

EXPERIENCE

Property Accountant | Ollie | New York

Jan 2019 - Apr 2020

- Managed property vendors, resident refunds, utility bills and account reconciliations, allowing management to make decisions on key KPI reports.
- Conducted monthly, quarterly and annual close processes and ensured transactions were booked timely and in accordance with GAAP, allowing for accurate monthly team meetings.
- Assisted management with company financial audits by procuring reports and documents, allowing for a smooth audit with no fail.

Staff Accountant | T&M Protection | New York

Aug 2017 - Aug 2018

- Prepared and reviewed client invoices and reconciled with sales orders; ensured the proper posting of client invoice payments.
- Performed analytic reviews of financial results; reviewed and completed month-end journal entries, accruals and any adjusting or reclass entries for payroll, commissions and expense/revenue items.
- Ensured that all vendor payments were processed and recorded; processed accounts receivable/payable entries resulting in accurate financial records.

EDUCATION

App Academy - 16 Week immersive Full-Stack Web Development Bootcamp with 3% acceptance rate

Feb 2021

CUNY College of Staten Island, Staten Island, NY - BA Political Science - Dean's List

Jan 2012
