Gabriel Reiter
Software Engineer

New York, NY   917-885-5137   www.gabrielhreiter.com   LinkedIn   Github

SKILLS

JavaScript, React, Redux, HTML, CSS, Ruby on Rails, Mongoose, MongoDB, Node.js, Express.js, SQL, SQLite3, PostgreSQL, Webpack, jQuery, Git, Heroku, SCSS, Google Maps API, Quickbooks, NetSuite

PROJECTS

Trace | *(React / Redux, Ruby on Rails, JavaScript)*   **live** | **github**
A full stack route and workout application inspired by STRAVA and deployed on Heroku

- Constructed a running route CRUD functionality by utilizing Google Maps API and Directions API, granting users the ability to generate personal routes based on the locations that they choose.
- Designed RESTful APIs and a structured, normalized state shape, allowing for smoother CRUD capability for the user's workout component.
- Integrated multiple CRUD components through JSON structuring, allowing the user to keep track of current routes and workouts through an activity feed on the main page.

What's Cooking | *(JavaScript, MongoDB , Express, React / Redux, Node)*   **live** | **github**
A full stack project that generates recipes based on the ingredients supplied by the user

- Developed a backend request function to a recipe api database utilizing axios, providing the front-end with accurate and functional data models.
- Collaborated with 3 software engineers and achieved optimal team efficiency via daily stand-ups and conducting role reviews
- Produced CRUD functionality for users upon sign-in, allowing them to create a 'grocery list' and a 'saved-recipes' component, resulting in the most optimal user experience.

Lava Escape | *(JavaScript, HTML, Canvas)*   **live** | **github**
Interactive 2D platform game where players try to survive for the high score

- Created a fully-functional controller scheme formed with canvas, providing for a smooth gameplay experience for the user.
- Incorporated animation sprites and sound effects, achieving a fulfilling audio/visual experience.
- Integrated a highscore system via Localstorage that is able to record the current player's score based on their gameplay, giving the application more of a competitive element.

EXPERIENCE

Property Accountant | *Ollie* | New York   Jan 2019 - Apr 2020

- Managed property vendors, resident refunds, utility bills and account reconciliations, allowing management to make decisions on key KPI reports.
- Conducted monthly, quarterly and annual close processes and ensured transactions were booked timely and in accordance with GAAP, allowing for accurate monthly team meetings.
- Assisted management with company financial audits by procuring reports and documents, allowing for a smooth audit with no fail.

Staff Accountant | *T&M Protection* | New York   Aug 2017 - Aug 2018

- Prepared and reviewed client invoices and reconciled with sales orders; ensured the proper posting of client invoice payments.
- Performed analytic reviews of financial results; reviewed and completed month-end journal entries, accruals and any adjusting or reclass entries for payroll, commissions and expense/revenue items.
- Ensured that all vendor payments were processed and recorded; processed accounts receivable/payable entries resulting in accurate financial records.

EDUCATION

AppAcademy - *16 Week Full-Stack Web Development Course with 3% acceptance rate*   Feb 2021
CUNY College of Staten Island, Staten Island, NY - *BA Political Science - Dean's List*   Jan 2012
